We have found an opportunity to offer you a good power buy with Quill Office Supplies, an affiliate of Staples. Quill offers catalog purchases either on-line or by phone with their hardcopy catalog. What is a power buy and how does it work?

A power buy is created when groups come together and purchase supplies under one umbrella. Each program receives its own account number and purchases independently with no accountability for another program. The savings comes as a result of multiple orders from the CDEA umbrella. Your churches may use it also.

How does CDEA benefit?

At the present time all of the savings are passed on to you through discounts. If we meet our quota at some time in the future, CDEA will receive a modest amount based on the volume sold. If this happens, that amount is passed back to CDEA members through its scholarship programs and disaster relief efforts. **You are the winners** whether you are saving on the products or receiving needed scholarship or disaster relief funds.

We need your help in establishing a volume quota!

This program is now up and running just in time for you to make your major purchases for the beginning of the school year. If we all work together, everyone's savings will increase from quarter to quarter and we all can use the savings for other quality components of our programs. We need you to make this happen. Please let us hear from you soon!
